25X1 38. [ ] LIAISON Met with Bill Miller, Staff Director, Senate Select Committee on Intelligence, and informed him of the request of staff member, Pat Norton, for a briefing on [ ] Miller said he knew this was duplication, as Miller had already been briefed on this case, but he wants Norton to have the briefing. Miller said there is high-level interest in this matter, citing Senators Howard Baker (R., Tenn.) and Henry Jackson (D., Wash.) as examples of interested parties. 25X1

✓ I asked Miller about Anne Karalekas', formerly of the Committee staff, commitment to show us her report on the charges of [ ] Miller said Karalekas had not finished the report before leaving the staff and he personally would have to finish it. He said he would show us the report after he completes it.

I told Miller the Director might be out of town from 6 to 10 February and asked if that conflicted with Committee plans. He said it would not. Regarding the hearings scheduled for the Director in February, Miller said he would look for three DCI appearances: a state of the world presentation; a state of intelligence presentation covering a detailed evaluation of our intelligence capabilities including assets, weaknesses, problems, future needs and what we are doing to meet them; and finally an FY-1979 NFIP overview.

I discussed with Miller the list of outstanding documents loaned to the Select Committee by NFAC and asked that he review the list and see what could be returned now. I also informed him I had delivered a letter from Admiral Turner transmitting another sensitive intelligence report. 25X1

4. [ ] LIAISON In response to his call of yesterday, I talked with Ron Tammen, on the staff of Senator William Proxmire (D., Wis.), and told him I still thought it best that the Senator not send us a letter requesting information in our files on [ ]

I said that I had discussed the matter with our General Counsel and that such a letter would raise novel questions which I thought we would all want to avoid at this time. I said we were running traces on [ ] and the two companies and at this point it appeared to us it would be better for Senator Proxmire to ask the FBI to check with us in the course of its inquiries and include CIA information (unattributable) in their response to the Senate Banking, Housing and Urban Affairs Committee. Tammen said he saw no problem with this approach but wanted to be sure that I raised the question so as to include information on [ ]

[ ] Tammen was also interested in DIA information and was making that request to us as the Director's representatives. Tammen noted the need for action since the Committee plans to proceed on this nomination on 23 January.

10. [ ] LIAISON Ron Tammen, in the office of Senator William Proxmire (D., Wis.), called to say that in connection with Senator Proxmire's position as Chairman of the Senate Banking, Housing and Urban Affairs Committee, they were looking into matters pertaining to the nomination of [ ]

25X1

✓ I suggested to Tammen that they delay sending a letter since such a letter might be interpreted as requesting CIA to provide information contrary to limitations placed on the Agency by Executive Order regarding American citizens and U.S. corporations. I told him we would start checking our files on the questions he had raised to see if any information existed, although I noted we do not direct our interest to American citizens and American businesses and would acquire such information only incidentally or collaterally in connection with our interest in foreign intelligence activities. I also said I would take up the legal question with Tony Lapham, General Counsel, and be back in touch with him. Tammen said he understood and agreed with my suggestion that it might be best if CIA did have such information that it be provided to the Committee as part of the investigation which presumably is being conducted by the FBI in these areas.

25X1

11. [ ] LIAISON Discussed further with Mike O'Neil, Chief Counsel, House Permanent Select Committee on Intelligence, the House International Relations Subcommittee on International Organizations requests, and he will be in touch with the Attorney General's office to explain what he believes is necessary to implement whatever understandings have been reached with the House leadership, including the need to pursue all leads involving unauthorized disclosure.

25X1

✓ 12. [ ] LIAISON Called Pete Stockton, Staff Director, House Interstate & Foreign Commerce Subcommittee on Energy and Power, on behalf of Marty Fitzgerald, GAO, explaining that there are two reasons for the differences in the letters to Chairman John Dingell (D., Mich.) and Comptroller General Elmer Staats on the further provisioning of material relating to [ ]. I said we would have no problem with the Comptroller General sharing his letter with Chairman Dingell except for that portion which identifies the interests of other committees.
